adani Electricity

The power of service

There has been an undue perception created around Adani Electricity's electricity billing by a senior political party leader through various platforms using irresponsible words like 'toot', 'tute' etc. We have been notified that this refers to a report which is decided by an independent quasi-judicial body MERC, after following due process of public hearing.

The statements made are totally irresponsible, false, incorrect, distorted, carry innuendoes and level false and malicious insinuations.

We once again, most humbly convey that the billing is strictly in line with MERC tariff order dated Sept 2018 and if there is any clarification that any consumer may want, we would be happy to respond duly clarifying on any aspect of billing.

With the growth in technology, utilities & errands, which earlier required frequent visits to government offices and unnecessary hassles, have become much more accessible. One such example is paying bills online for many utilities, including phones, DTH (Direct To Home service provider), and electricity. Among all these services, paying an electricity bill online is one of the most important and convenient option. Online bill payment is made very easy nowadays, and there are many options available for the same. We'll walk you through the basics and benefits of online electricity bill payment. Online electricity bill payment is a mode of paying your bills through the internet, using your bank account or third-party payment gateways. It can be done free of cost by using a web application or browser with little or no effort once you understand the dynamics of bill payment. This goes a long way in simplifying the process and helps you to manage your bills effectively. You don't have to write a cheque or deal with cash to pay the electricity bill. All the payments can be made with the touch of a single button. The bill payment can be made by first setting up your account number linked to the electricity bill of your home, office, school, or any other place. This service can be directly linked to your bank account or several service providers dealing with online payments. If you want to pay your Adani electricity bill online, you can do it through our secure website and payment gateways and perform the easy task of paying your energy bills. It can be done easily on the Adani Electricity website. The portal offers a hassle-free experience of paying your electricity bills online and cuts down on the time which otherwise you would have wasted standing in long queues. People across the world are switching to the digital medium to make all types of payments - from shopping on e-commerce sites to paying grocery bills. Similarly, more people prefer to pay their electricity bills online these days. The world of online payment services comes with a wide array of benefits. Let's have a look at a few of them: Forget those annoying days of missing the last date of your bill payment or waiting for a long time in a queue to pay your bill on the last date. With the online mode of payment, you can pay all your bills under a single umbrella. Furthermore, some services have the option to schedule your next bill payment day and automatically notify you about the same when your bill is due. This way, you will never skip any bill payment or fear losing your electricity connection. Although many people may argue that online payments are not private, safe, or secure, the reality is that it is generally a very secure way of making payments. Several safety measures are incorporated by online payment platforms to ensure your safety, including unique usernames, strong passwords, and encryption. Most payment platforms now also have double security settings with OTPs, to ensure that your data is safe at all times. The online payment gateway keeps track of your account balance meticulously. You have the option to take a quick look at your account balance to know if you have sufficient money to pay your electricity bill online. The other features offered include glancing over your pending bill payments, ensuring that your electricity bills are paid on time. The best and most crucial advantage that the online mode of electricity bill payment provides is reducing paper waste, which also means that it remarkably reduces the number of trees cut for printing electricity bills. Our paperless e-billing service also offers a ₹10/- discount on your electricity bill every month. Online bill payment is a cost-effective as well as an eco-friendly alternative. In a fast-paced world, we are all looking for ways and means to help us buy some time for ourselves. Paying electrical bills online with just one click is a hassle-free process and takes merely a few minutes. Furthermore, if you have enabled the E-NACH feature on your payment server, the process becomes easier, better and saves time. There are numerous payment methods available for carrying out online bill payments: Banking cards are the most widely used and accepted form of digital payment. They are safe, secure, private, and easy to use. Some cards are even accepted internationally. They can be used for digital transactions, bill payments, shopping, and so on. You can pay your electricity bill online through net banking using your bank account, such as State Bank of India, Citibank, IDBI Bank, Punjab National Bank, ABN AMRO, HDFC Bank, Union Bank of India, Bank of India, Industrial Bank, and AXIS Bank. This is one of the most convenient ways of transferring money and paying your EB bill online. This service is available 24/7 and on all days of the year. You can also do it through the Adani Electricity Mobile app. With Adani Electricity Mumbai Limited, the door to paying your electricity bill online has become extremely easy, effective, and convenient. Now in addition to the traditional cash withdrawal and balance enquiry services, you can use New India Co-Operative Bank ATMs for the following value added service. Bid adieu to long queues. Pay your Adani Electricity bill with ease at your nearest NICB ATM Adani Power Maharashtra Ltd (APML) has shot off a letter to Maharashtra State Electricity Distribution Co. Ltd for payment of Rs 10,135 crore toward supply of electricity by APML following the apex court's direction to pay at least 50 per cent of the outstanding dues. Referring to the Supreme Court order on January 31, 2022, the letter reviewed by PTI said Maharashtra State Electricity Distribution Co. Ltd (MSEDCL) is required to pay 50 per cent of the outstanding amount to APML within four weeks. "We request you to kindly release Rs 10,135 crore being 50 per cent of the outstanding claimed amount on or before February 28, 2022 and comply with the Supreme Court order," the letter dated February 1, 2022, said. "This letter is without prejudices to our rights and contentions under the Power Purchase Agreements and applicable law," it said. Taking note of the rising discoms' outstanding dues in the country which have crossed Rs 1 lakh crore, the Supreme Court on Monday noted that if state-run power distribution companies do not promptly clear dues to electricity generators, the latter will shut and there will be no electricity. The warning came from a bench comprising Chief Justice N V Ramana and Justices A S Bopanna and Hima Kohli on plea of APML which had sought at least 50 per cent payment of dues for power supplied to MSEDCL. The bench directed MSEDCL to pay 50 per cent dues to APML within four weeks. According to PRAAPTI (Payment Ratification And Analysis in Power procurement for bringing Transparency in Invoicing of generators) portal, total outstanding dues of power distribution firms are Rs 1,17,600 crore as of February 2022. As per the portal, total dues of discoms in Maharashtra are Rs 21,070 crore. APML is the largest coal-based thermal power plant in Maharashtra. The plant has a capacity to generate 3300 MW power through its 5 units of 660 MW capacity each at Tiroda in district Gondia (Only the headline and picture of this report may have been reworked by the Business Standard staff, the rest of the content is auto-generated from a syndicated feed.) Quick Bill Pay Please provide customer id to fetch information. Welcome to Adani Electricity Mumbai Limited - India's Largest Private Power Company Adani Electricity Mumbai Limited (AEML) is one of India's Largest Electricity Distribution Company and a 100% subsidiary of Adani Transmission Ltd. to provide integrated facilities of generation, transmission, and distribution of electricity in Mumbai. Presently we are serving over 2.9 million customers with an uninterrupted power supply in the Suburban Mumbai area spanning over 400 Sq. km. At Adani Electricity we firmly believe in the "Power of Service" - Not just meant to power a home or a business, but to power everyone's life. We understand how important power supply is to every citizen and therefore AEML strives to provide reliable electricity supply at competitive and cost-effective prices. The AEML (Adani Electricity Mumbai Limited) website is not only a medium to inform people about who we are, but also an opportunity to engage with all our stakeholders, both existing and upcoming. We believe in rewarding the efforts of our Adani consumer family. Therefore, Adani Electricity also has a reward programme called Electric Smiles. Our consumers can access the reward point programme, Electric Smiles, through the Adani Electricity mobile app. The consumer's electricity account gets directly credited with the points that they earn on any cashless payments made for Adani Electricity bills. There is also a provision to earn additional bonus points on all AEML electricity bill payments that you make within 7 days of the electricity bill generation. AEML also plays an active role in the promotion of Rooftop Solar PV Projects in Residential and Group Housing categories as per MNRE guidelines for the Program. Adani Electricity Mumbai Limited acts as the nodal implementing agency for the MNRE Program and a channel for extending the MNRE subsidy to the consumer and bringing vendors onboard for the implementation of the projects. Being India's Largest Private Power Company, Adani Electricity Mumbai Limited (AEML) has also pledged to be the gamechanger in transitioning individuals and organisations to Electric Vehicles (EVs) for a better tomorrow with its "Mumbai Switch to Green Pledge" initiative aimed towards mitigating the climate crisis through the deployment of EV charging stations in Mumbai which are powered by renewable energy, thereby making a serious impact on reducing carbon emissions. Adani Electricity is now deploying a comprehensive Charging Network dedicated to serving Mumbai's Electric Mobility needs. Adani Electricity will deploy Charging Stations at the most convenient locations - from residential societies, office complexes, and high footfall locations, to Airports and Highways connecting Mumbai. India's Largest Private Power Company, AEML, also has one of the best power-generation plants in India, Adani - Dahanu Thermal Power Station (ADTPS), consisting of two units of 250 MW. The commercial operations of this thermal power plant commenced in January 1996. ADTPS has been felicitated with various awards, for its unique features that distinguish it from others in terms of innovation, performance, and continuous sustainability. Just like AEML does, ADTPS also follows high standards of quality and strives to perform its environmental and social responsibilities to the core. The Adani Group at large is a globally integrated conglomerate functioning across key industry verticals of logistics, energy, utilities and agro.
