Pages manual for ipad

Whether you are new to Mac or like having the official Apple User Guide as a reference, having it at your fingertips can be useful for you, as well as helping others. Apple makes available free of charge the official guides for its devices in digital formats. You can find physical copies from various third parties that go from about \$10-\$20 to Amazon, but the official free Mac guides have some advantages. In addition to being the official Apple guides, they are updated over time as the company releases new software and changes are made to MacOS. Another great advantage is that eBooks guides are quickly available. Note: It may be useful to have the user guide you would like to read on a secondary device, if possible, so that you can refer to it while using the device you are learning. In this case you might want to upload the Mac User Manual to an iPad or iPhone. Click on the following links for free official user guides and choose your specific machine on Mac notebook or Mac desktop Find the eBooks link for free user guide (you can alternatively choose to view the web version) You can download the free eBooks user guide on Mac, iPhone or iPad after clicking on the link, Follow the instructions to download the free user guide with eBooks (Apple Book) on iOS 12 and macOS Mojave) This is how the process on iPhone looks: You may need to enter the password of the Apple ID to download the free book. On iPad and iPhone, you can scroll to turn the pages, do not forget to touch the screen to use the convenient table of contents, search and bookmarks above. Although it is often useful to download these guides on your device, you can also use web versions. For more information on how to get the most out of your Apple devices, take a look at our guide as well as the following articles: Discover 9to5Mac on YouTube for more Apple news: FTC: We use affiliate links to earn car income. More than that. Check 9to5Mac on YouTube for more Apple news: This guide helps you start using Pages 11.2 on your iPad. (To see what version of Pages you have, go to Settings > Pages.) To explore the Pages User Guide, touch Index at the top of the page or enter a word or phrase in the search field. You can also download this guide from Apple Books (if available). If you need further help, visit the Support Pages website. To start reading Web manuals, find the Web Manuals icon and browse it. If you have logged into your company's website, you will be taken to the login view where you log in with your username and password. Otherwise you will be shown a login module where you enter the customer ID, unique for each customer. If you do not know the customer ID of your company, to your system administrator. Enter the customer ID and click Continue to go to the Login screen. The next step is to enter your username and password and click Login to access the app. Login Settings Save Login When Save checked the app will save credentials, which means you will be automatically registered the next time you open the app. Online When Online is checked the app is allowed to communicate with the server for updates. If you are connected to the Internet, this will be enabled by default. On the contrary, disabling this option will access you in Offline mode that will prohibit the app from talking to the server and then no updates will be transmitted. Offline mode can only be used by a user account that has already used the device in online mode. I forgot my password If you forgot the password click, I forgot my password. This will show you a screen where you insert your e mail address and click Send. An e mail will be sent with instructions on how to restore the password. Note: Clicking on the company logo will take you to the screen where you enter your customer ID. Registration to the online login app web manuals When on the login screen, press the Online Login button. Note that the regular login tapping switch will take you to the normal login screen. The Microsoft authentication portal will open. Enter your credentials or select the user from the list of those previously used and click Accede. If you have not previously created an offline access code, you will be asked to do so directly after access. You can skip this pass and come back the next time you enter. Enter a six-digit code and click Save or click Jump to access the app. Off-line Access When on the login screen, press the Login Offline button. Enter your username and 6-digit code and click Login. Normally the username will be set to the last registered user to make this process easier. If the correct username and access code combination has been entered, it is now necessary to be registered. Dashboard Panoramic In this section we will provide a brief overview of the iPad Web Manual reader's toolbox. The dashboard provides a quick summary of different categories of documents. Critical operating documents*These are documents that are of fundamental importance when flying. This view probes the category Operational Critical Documents and verifies whether these have been downloaded or not onto the device and then displays the results. Unread Documents These are documents that have not yet been read. Could be new existing documents or documents that have been updated. Latest published documents Show the total amount of documents allocated, including documents still to be downloaded. Click View All on one of these boxes will take you to a complete list of documents related to that category. Operational critical documents will only appear on the dashboard when the Operational Critical has been assigned to the role you are set to. Note: If you are connected with Offline mode, the Offline Mode text will be visible on Home. Toolbar left The dashboard dashboard has a number of features attached to its left toolbar. Each of these will be explained in more detail on the following pages. HomeTapping The house will take you to the dashboard. Documents Show all categories and documents you have access to. From here you can open documents, delete documents from iPad etc. A readShow new documents or revisions of documents you have not yet read. Preferred View a list of all pages (with associated documents) that you have selected as Preferred in the reader. Search We are looking for one or more words through all available documents. Documents Touch the Documents button will open the category tab, where you can browse and find a document you are looking for. Panoramic view of the document CategoryDisplays the name of the category. Some categories have subcategories, which will be revealed when you touch a category. There may be more levels of subcategories. My documents With my documents you can easily collect all documents that are important for your daily work. Documents are listed in the same way as a normal category. No of documents within the category The number on the right of some of the categories indicates how many documents are in that category. Categories with no number next to them indicate that the category does not have direct documents for children. Nominal Review Indicates the name of a published revision. Date of publication of revisionIndicates the date of publication of a revision. Sliding left on documents and categories Sliding left on any category will show a Download All button that allows you to download all documents into that category. Sliding to the left on a document will display a Delete button that allows you to delete the selected document from the iPad storage. Deleting a document only deletes it from the device storage, not from the Web Manuals database. The document can be downloaded again after cancellation if you are connected to the Internet. Sliding to the left on a document will also show Add to my documents, which if clicked will put the document in my documents visible above the categories under Documents (with a star icon instead of a folder icon). To remove a document from my Documents, scroll to the left and click Remove from My Documents Sliding to the left on PDF will show an Open button in which you can open the PDF in the native PDF viewer of iPad instead of the one designed by Web Manuals. This display will allow you to share the document with other sources. Click thumbnails in the upper right corner to view the thumbnails of the available documents. Click List to return to the default list view. Not read Click Not Read display all unread documents (may be new documents or existing documents that has been updated). The number next to the icon indicates how many unread documents you have. By default you check documents (remove them from the list of unread documents) by opening, reading and closing them However, it is possible for the system administrator to change into different checkout options. Accept checkout option(194; 160; Acceptance (194; 160; means that the document recues an explicit verification. If gluten is 160; Accept is 160; it will be available. Tap e also to confirm that you have read the document and the document will be checked. QuizThe checkout option option 194; 160; Quiz 160; means that you have to do a quiz before the document can king checked. If the current document requires this, then the Quiz button will be available. One click will take you to the quiz. The quiz contains questions about the document and if you answer questions correctly enough (this is set by the system administrator) Prefer Tapping the194; 160; Prefer 160; button will open a tab with the pages you have marked as your preferred documents, along with the documents to which they belong. Search Tapping the194; 160; Search nation is 160; will open a window that allows you to search for documents and contents inside You can search for more words. If you activate 160; Online Searchwill search through all documents you have permission to read, even those that are not yet downloaded on your iPad. The Reader The Reader view overview is displayed when you select a web document from the Dashboard. 160; To turn a page in a document is 160; wipe your finger through a page from right to left to go to the next page and left to right to go to the previous page. 1. Left Toolbar Features various tools that can be used in the web document. Page Show an overview of a l l the and pages inside the document. TOCSHow documents Table of Contents. Search Shows the search tool. Preferred Allows you to add pages to favorites and displays all favorite194; 160pages. CommentAllows you to add comments to a page and displays all page comments. In case of activation,194; 160is possible It is possible to send the modification requests, which will constitute a194; 160; Task19;160; which will be assigned to a194; 160; to the person responsible for administering the manual. A modification request cannot be seen by other users.194; 160; Fit Manual Make194; 160; the entire page is visible in the Reader, which means that 1194; 160; will be smaller and you will no longer be in 194; 160; you will have to scroll to see the entire content. Prints pages. Evidence allows you to insert the highlights and annotations in the page. 2. Top Menu provides access to the settings that control the functionality of the app and provides quick access to toolbar and recent documents. Returns you to the previous view. Returns you to the document view in the toolbar. List of shortcuts to recent documents and Dashboard views. 3. Browse bar is navigate through the document via the navigation bar at the bottom of the screen. The bar has several buttons on it. First / LastNavigations to the first or last page of the document. ChapterNavigate through chapters instead of pages. ChangeNavigation ChangeNavigation changed since last revision. Prev / Next View the previous or next page of the document. Left Pages of the toolbar Touch this button to show an overview of the current document, with thumbnails of all individual pages. The delta sign icon (triangle-shaped icon) on a page indicates that the page has changed. A star icon indicates that the page is marked by you as your favorite page. Index Touch this button to display the index of the current document. To expand a chapter or a sub-chapter, touch the arrow with the point to the right. Search To search in a document from the Reader, click Search in the toolbar. A window will appear where you write the search word and click Search. All pages containing the word you are looking for will be displayed, and when you click on a page the word will be highlighted. In the lower corner of the Reader you will see a navigation window that allows you to jump between the pages containing the word you are looking for. Preferably This icon allows you to mark a page, when the icon is empty it is not among the favorites and when it is filled you can find it under "Signals" in the dashboard home. Comments Touch this button to show comments made on the current page. It also allows you to write a comment of your own. If you have sufficient permissions, you will also be able to delete comments. The number indicates how many comments have been added for the current page. Mounting Manual Touch this button to adjust the manual to the screen, which will display it in vertical mode making all the contents visible without having to scroll. Zoom in button will appear to enlarge the page again. Press Press this button to show a menu to print the page you are viewing. Highlight To add a Highlight to a page, press the Highlight button and select a color. Proceed with the selection of the text you want to highlight, once selected click out of the selection. Notes You can add short notes to the highlights by touching a highlighted text. A box will be displayed where you can insert the appropriate text. Press Save to confirm the change. Note that highlights with annotations have a hatched edge around them ©. Top menu Recent list of shortcuts to recently opened documents. Luminosity The slider allows you to change the brightness of the rear illumination of the screen. Click this button and you will see a menu with different options that will be described below. Settings can delete the device from all contents downloaded here. Online This button allows you to switch from online mode to offline mode. In offline mode the Reader will not attempt to send or receive data from/to servers, the application to connect to the server and check for any changes. HelpThe Help button will show the help manual. AboutDisplays the application id and the version number of the Web Manuals application. LogoutBy clicking this button you will be disconnected. You recognize PDF files by the red PDF icon. Clicking on a PFD file will open will open in the PDF Reader Web Manuals. If you want to open the PDF file in the native iPad PDF reader, scroll left and click Open In. Note that it is possible for the system administrator to disable this feature. A PDF file. Swipe left over the PDF file to reveal the menu. The PDF Reader When you open the PDF file in Web Manuals PDF Reader you will see a menu with several options. 1) BackTakes you back to the previous page. 2) HomeReturns you to the document view. 3) RecentDisplays your recently opened documents.À 4) SearchLet search the PDF. 5) Brightness The slider allows you to change the brightness of the backlight of the screen. PagesChange the display to a list containing thumbnails of all pages in the document. Clicking on a thumbnail takes you to that page in the regular view. 7) ToC/BookmarksClick this button to view the current document index or to manage your bookmarks. To expand a chapter or sub-chapter, tap the right-pointed arrow. 8) PrintAllows you to print the document (the current page or the whole document).
