From govt exams to MBA inputs, almost all aptitude tests have an entire section dedicated to mental skills. But what does the mental skill section feel? The Mental Capacity section is not as academic subjects. Questions require logic and interpretation skills to find the correct answer. Discover the topics and tricks to solve mental skill questions in this article. Topics of mental skill The mental skill section includes both arguments of reasoning and interpretation. However, there is no program prescribed for this area in most exams. Verbal Reasoning Jumbled Paragraphs/Para-jumbles Assertion & Summary Reason Questions Reading Comprehension Logical Reasoning Data Interpretation (Tables, Charts, Graphs) Caselets Puzzles Analogy Blood Relations Classification Coding and Decoding Data Sufficiency Direction Logical Sequence of Words Logical Ven Diagram Number Series Sequence Missing Characters Spontaneous Reaction What are the tricks to solve mental skill questions? No fixed theory... Unlike subjects such as physics and mathematics, there is no correction theory to solve mental skill problems. Therefore, a candidate must apply various approaches to different types of questions. The following are:More common questions regarding this section. Find out the tricks to solve questions along with some examples. 1. To solve any mental skill problem, the candidate must carefully read the question. For example, if you are solving a question of interpretation of data, try to analyze data very carefully before you finish. 2. Blood Report Tricks– Prepare a tree diagram by assigning symbols to different family members. For example, you can assign a circle for the mother, a square symbol for the father, etc. When reading the questions, draw the symbols of the members mentioned in the problem. This will help you get accurate answers to blood relationship issues. 3. Coding-Decoding Tricks: Most encoding-decoding questions have a particular model to understand the problem. These are letter codes or replacement questions, the model is the key to solving encoding and decoding questions. 4. Analog tricks– There are various types of verbal analogy questions. Applicants must find the analogy of a set of words based on the first couple of words. Check the following question for example. Question Sismografo: Terremoto:: Taseometer : A) Landslides B) Strains C) Resistances D) Volcanoes Answer: B Explanation: The sismograph measures the intensity of an earthquake. Similarly, a Taseometer is a tool to measure physical strains in a structure. 5. Paragraph tricks: Applicants must identify the opening phrase of the paragraph. The opening of the paragraph is important as it gives an introduction to the theme. Similarly, identify the closing phrase. this will help you find 50% answer to the question of para jumble. 6. assertion and tricky reasons: the statement part of the issue contains a normal statement. the part of the question offers an explanation or a statement concerning the statement. candidates are given four options to select the right answer. Applicants must understand whether assertions of assertion and reason are true or false and mark the applicable option. demand assertion (a.) the "Day of the Republic" of India falls on 26 January. reason (r:) the constitution of India, declaring India as "Republic", entered into force on 26 January 1950. a) whether it is to what r are true and r is the correct explanation of a b) whether it is to what r is not the correct explanation of a c) if it is true but r is false d) if it is false but r is true answer: a 7. indicate sense tricks: there are four main directions and four cardinal directions. the best way to solve a management problem is to draw a diagram of the four main directions - north, east, south and west. continue to add the person/directions to the diagram during the reading of the question. example. One morning after dawn, ramesh stood in front of a pole. the shadow of the pole fell exactly to his right. to which direction was he facing? a) east b) west c) south d) the data is inadequate answer: c) south explanation: the sun rises in the east and the shadow of ramesh falls toRight. So, it's in front of the south. general mental ability and reasoning topics. general mental ability and reasoning topics for grama sachivalayam. general mental ability and reasoning in telugu. general mental ability and reasoning for grama sachivalayam pdf. general mental ability and reasoning for grama sachivalayam. general mental ability and reasoning in telugu pdf. general mental ability and reasoning material in telugu pdf. general mental ability and reasoning syllabus pdf
