How to disable weather in minecraft java

What is the command to completely disable the weather in minecraft? I currently use /weather cycle 1000000 but it only works for a couple minutes. After that it resumes raining. I need the command to ensure it is permanently disabled for this world until I use a different command to make it resume. Thank you! 1 I've been having problems with the weather in Minecraft. The weather used to work normally, but for some reason, the weather won't change. Is there a way to fix it? Because the weather is on constant even when I turn off Constant Weather. I just want to have the normal weather cycle. 3 1 Launch Minecraft on your PC and select "Create New World" on the "Select World" screen. You can only stop rain by creating a new world and enabling cheats. Rain can only be stopped on the PC version of Minecraft, unless you install custom Minecraft mods developed by third parties on your gaming console. Before installing custom Minecraft mods on your system, contact the developer to verify whether rain can be stopped at any time using that particular mod. 2 Click on "More World Options," then select "Allow Cheats: On." This options allows you to use cheats throughout gameplay when logged into this particular world. 3 Click on "Done," then type a name for your new world into the "World Name" text box. 4 Click on "Create New World." Your new world is now created with cheats enabled. 5 Select the option to launch a gaming session of Minecraft in the world you just created. 6 Wait for rain to start falling during gameplay, then type "/weather clear" or "/toggledownfall." As you type one of these cheat commands, the cheat will display at the lower left corner of your Minecraft session. 7 Press "Enter." After pressing Enter, the message "Changing to clear weather" will display on-screen, and the rain will stop in your current Minecraft gaming session.[1] To make rain stop for a predetermined amount of seconds, type "/weather clear < time >." with "time" representing the number of seconds for which you want the rain stopped.[2] Add New Question Question Why would I want to stop the rain? It might be annoying for some players. Question If I toggle the day cycle off, will it still change the weather? No. The day-night cycle has no effect on the weather. Question How can I stop rain permanently in Minecraft? You can't but, you could get a command block with cheats, and then make a red stone circuit that is connected to the command block. Question Is there a way to turn off the rain on Minecraft PE? Same way as Minecraft PC: just open your chat and type /weather clear [duration], but don't forget to turn on cheats on your map. If you want it to stop for a long time, put a big number into the duration part! Question Does raining make it night or does the time of day stay the same in Minecraft? It stays the same. Weather doesn't affect time in Minecraft. You can change the time by typing with cheats enabled. "time set [day, noon, sunrise, sunset, night, midnight]." Question Can I put infinity for the time of rain in Minecraft? No but you can put in a big number on cheats like 100 or 46 on cheats like do that. Question How do I stop the rain in Minecraft? Use the command /weather clear and press enter. Do not forget to put cheats on. Ask a Question Thanks! This article was written by Travis Boylls. ""/toggledownfall" was not in my knowledge of the game. I will be playing with that command to find how it works now. "... more Share your story This Minecraft tutorial explains how to set the weather to clear with screenshots and step-by-step instructions. When it starts to rain or thunder in your Minecraft world, you can change the weather back to clear with a cheat (game command). Let's explore how to set the weather to clear. Subscribe Supported Platforms The /weather command to change the weather to clear is available in the following versions of Minecraft: PlatformSupported (Version*) Java Edition (PC/Mac)Yes (1.4.2) Pocket Edition (PE)Yes (0.16.0) Xbox 360No Xbox OneYes (1.2) PS3No PS4Yes (1.14.0) Wii UNo Nintendo SwitchYes (1.5.0) Windows 10 EditionYes (0.16.0) Education EditionYes * The version that it was added or removed, if applicable. NOTE: Pocket Edition (PE), Xbox One, PS4, Nintendo Switch, and Windows 10 Edition are now called Bedrock Edition. We will continue to show them individually for version history. Requirements To run game commands in Minecraft, you have to turn cheats on in your world. Command to Set Weather to Clear How to Enter the Command 1. Open the Chat Window The easiest way to run a command in Minecraft is within the chat window. The game control to open the chat window depends on the version of Minecraft: For Java Edition (PC/Mac), press the T key to open the chat window. For Pocket Edition (PE), tap on the chat button at the top of the screen. For Xbox One, press the D-Pad (right) on the controller. For PS4, press the D-Pad (right) on the controller. For Nintendo Switch, press the right arrow button on the controller. For Windows 10 Edition, press the T key to open the chat window. For Education Edition, press the T key to open the chat window. 2. Type the Command In this example, we will change the weather to clear with the following command: /weather clear Type the command in the chat window. As you are typing, you will see the command appear in the lower left corner of the game window. Press the Enter key to run the command. Once the cheat has been entered, the weather in your world will be clear: You will see the message "Changing to clear weather" appear in the lower left corner of the game window. This will reset the world to clear weather. Now it will stop raining and be clear again in Minecraft!
