3 / 12 Uweázucchi/Epa/Shutterstock This was the first-ever edition of the Good Book to be produced using moveable-type print, with Johannes Gutenberg’s printing press (hence the name). One ended up in the hands of London book dealers, who purchased it for 4.6 million pounds. Gates decided to share his purchase with the world, and did it in the most Bill Gates way possible: he scanned the pages of the book and turned them into a Windows 95 screensaver. Action songs, chants, and games encourage children to discover connections between English sounds and letters. At the time, 1987, it set the record for the most expensive book ever purchased. Check out the most expensive movie props ever bought. It cost him a cool \$6.2 million. 6 / 12 Letteris Pitarakis/AP/Shutterstock Between 1827 and 1838, naturalist John James Audubon published a series of exquisite prints depicting hundreds of different North American bird species. The book measures only five-and-a-half by three-and-a-half inches. Formally titled “Mr. William Shakespeare’s Comedies, Histories & Tragedies,” the folio contains all but four of the Bard’s dramatic works. It’s widely believed that the document helped inspire the Declaration of Independence. The text was a masterpiece, 266 pages long with 50 Romanesque illustrations depicting scenes from all four gospels. This one stands out from its fellows, though, because of its distinction as the first book ever printed in the British colonies that would become America. Rowling gave six of these “Moonstone Editions” to friends and people who worked on the Harry Potter books, but one went up for auction on Amazon. In 1999, an Australian businessman named Kerry Stokes purchased it from Christie’s in New York. One copy, though, has belonged to American businessman David Rubenstein since 2013, when he bought it at a Sotheby’s auction for \$14.2 million. Together, the 435 illustrations form the complete first edition of Birds of America, of which there are only 119 remaining copies. The text was one of the earliest to lay out the concept of basic human rights and limit the powers of a king. 2 / 12 ED BAILEY/AP/REX/Shutterstock The title of this eighteenth-century French handbook translates to “Treatise of Fruit Trees.” The book was written by botanist Henri Louis Duhamel du Monceau and contained five separate volumes filled with detailed illustrations. There are approximately eleven copies still intact today, mostly in the possession of libraries and universities. In 1998, that amount was equal to about five-and-a-half million U.S. dollars. The 17,000 lines of The Canterbury Tales tell the story of a motley crew of pilgrims who engage in a storytelling contest while on their way to visit a holy shrine. Today, the complete manuscript has a home in Wolfenbüttel, Germany’s Herzog August Library. 10 / 12 Kirsty Wigglesworth/AP/Shutterstock This pocket-sized version of the Gospel of John is one of the earliest surviving examples of Western bookbinding. The identity of the buyer is most likely David Rubenstein, who is also the lucky (or perhaps just wealthy) owner of the Bay Psalm Book. If you do the math (there are 24 separate tales), that’s approximately \$230,000 per tale. 8 / 12 Mark Chilvers/The Independent/Shutterstock These are some pricey prayers: this Flemish collection of Christian texts, psalms, and images cost its buyer \$13.4 million. Of the 750 copies originally published seven years after his death in 1623, only 228 remain. He thought it “very important” that there be a copy of the Magna Carta in the United States. If you love books but don’t want to pay exorbitant amounts, here are some websites that let you read great books for free. The current record for the most expensive book of all time belongs to this 72-page notebook filled with the Renaissance genius’s notes and theories. It was compiled in the early 1500s and features the works of a myriad of Flemish scholars, which fill 254 separate pages. NEW Oxford Phonics World App with games, puzzles, and animations reinforces learning at home in a fun, hands-on, and interactive way. 7 / 12 Shutterstock Only just beating out the birds in this list of expensive books is a lion... Henry the Lion, to be exact. You might know the buyer’s name as well: Bill Gates. (levels 1-3) Let us guide you through the world of phonics... One mega-fan paid \$3.98 million for it, and Rowling donated the proceeds to a children’s charity. While far from the most expensive book on this list, Beedle was the priciest book ever purchased that was written and published in the twenty-first century. One sold for a whopping \$21.3 million at a 2007 auction. This manuscript went for 3.4 million euros (about \$4.5 million U.S.) at a 2006 auction. Yes, someone spent four-and-a-half million dollars for a book about fruit trees. Created in the eighth century, it spent years in the coffin of its namesake, St. Cuthbert, before becoming the property of an English Jesuit school. To ensure its safety, it is only put on display once every two years! Check out the most expensive things thieves have ever stolen. Основні характеристики Читати ще Відгуки App Over 150 Phonics Friends - an angry apple, a big bear, and others - help children remember English sounds. His reasoning for spending so much money? 5 / 12 Paul Vicente/EPA/Shutterstock This enduring collection of stories from the Middle Ages by fourteenth-century poet Geoffrey Chaucer fetched a hefty sum of money in 1998—7.5 million dollars, to be exact. JK Rowling produced seven separate handwritten copies of Beedle, filled with illustrations she herself had drawn. Teacher’s Books for every level include a games bank, and guides you step-by-step through teaching phonics. 11 / 12 Justin Lane/EPA/REX/Shutterstock The Magna Carta, the thirteenth-century charter that laid the foundation for the future of the law as we know it, is one of the most famous texts in history. Naturally, it earns a high spot on this list. If you own one of these rare books, you’re sitting on a gold mine. Today, only seventeen copies predating 1300 survive. Next, check out the most overdue library books that ever made it back to the library. It may be small, but its price tag sure isn’t; the British Library raised over \$10.7 million to buy it for good at an auction. These books were incredibly beautiful: leather-bound, with silver and moonstones decorating the cover. Henry the Lion was the Duke of Saxony from 1142 to 1180 (Saxony, in case you were wondering, is a German state). 12 / 12 RICHARD DREW/AP/Shutterstock You might know this author’s name: Leonardo da Vinci. Despite being mass-produced, the Gutenberg Bible is still incredibly rare and valuable, as its \$5.4 million price tag makes clear. Another reason for the bird book’s massive value is the fact that six of the bird species depicted are now extinct. 4 / 12 Jerome Favre/Epa/Shutterstock This collection of William Shakespeare’s plays is widely considered one of the most significant treasures in literary history. In the years leading up to its 2012 purchase, it was on loan to the British Library. The Codex set Gates back a cool \$30.8 million. Active class activities develop children’s listening, speaking, reading, writing, and spelling skills and provide opportunities to apply them. Originally Published: May 07, 2018 In 1640, 20 years after the Pilgrims landed on Plymouth Rock, the Bay Psalm Book emerged from printers in Cambridge, Massachusetts. He commissioned the production of a gospel book for display on the altar of Brunswick Cathedral. Only 48 copies of the original 1450s-printed batch remain today. In 1980, an art collector bought it from the Leicester estate, and none other than Bill Gates bought it from the collector in 1994. “As a journey of a thousand miles begins with a single step, so the journey of learning English begins with Phonics.” Craig Wright - Author Children learn sounds step-by-step A unique journey strip at the bottom of each page shows the sounds learned, and sounds still left to learn Review sections let students and teachers see their progress Go even further with ‘Now try these!’ activities “We started using Oxford Phonics World 2 just this year... My job is easier because of the quality of the materials...and my students are more excited to learn English because the material challenges them in just the right way, offering a task that takes some struggle, but can be overcome... Now, our students’ writing ability is significantly higher than before, and they are often able to read the short phrases in the stories they’re presented without teacher aid... They like seeing just what they can do, and being able to hold a book that they read on their own makes them visibly proud.” Corey Fegan - Sendai Shirayuri Elementary, Sendai, Japan Oxford Phonics World App An interactive app enhances the journey at home ...With 3 levels, 27 units, 216 games, 27 sets of Extras, and 200 animations, the Oxford Phonics World: School Edition app provides learning that is thorough—and a real delight for children.Children will gain knowledge of the English alphabet and will learn over 200 words in a fun and memorable wayFourteen game types, each with variations, engage children in the learning processOver 200 animations reinforce what students learn in classCollecting smileys, stars, and trophies keeps children motivatedSpecial Extras enable children to make and send pictures using words they have learned, practice tracing letters, and watch their favorite animations 1 / 12 SANG TAN/AP/Shutterstock JK Rowling’s first book since the conclusion of the Harry Potter series fetched a huge chunk of change. The book ended up back in the hands of the German government around 800 years later when it was purchased at a 1983 London auction for \$11.7 million. Paul Allen, the co-founder of Microsoft, snatched one up at Christie’s, an auction house in New York City, in 2001. The buyer of this copy was Maruzen Co. Ltd., a major Japanese bookseller. In 2010, the most expensive copy of Birds of America went for \$11.5 million at Sotheby’s Auction House in London. Two other copies of the book also raked in big money in the twentieth century: an \$8.8 million copy in 2000 and a \$7.9 million copy in 2012. Stokes loaned it to the National Library of Australia in Canberra, where it remains today. These items are about to get way more expensive. 9 / 12 Sotheby’s/Shutterstock Religious texts continue to fill this list of expensive books, with the Bay Psalm Book continuing the trend. Only 12 original copies still exist today. Published in December 2007, Beedle was the complete book of fairy tales that play a crucial role in the final installment of the Harry Potter series. In the early 1700s, the Codex was purchased by the Earl of Leicester, hence its name.
