Neet biology questions with answers pdf. Mcq questions for neet biology with answers. Neet biology questions with answers in tamil. Neet biology questions with answers 2021.

Correct answer: correct answer: correct answer: correct answer: correct answer: what is a biological product? Biological products include a wide range of products such as vaccines, blood and blood components, allergen, somatic cells, genetic therapy, recombinant tissues and therapeutic proteins. Biologics can be composed of actions, proteins or nucleic acids or complex combinations of these substances, or may be alive entities such as cells and tissues. Biologics are isolated from a variety of natural - human sources, animals or microorganisms - and can be produced by biotechnology and other state-of-the-art technologies. Biologics based on genes and mobile, for example, are often at the forefront of biomeric research, and can be used to
