Poisso[07.22.09]In this article: eternal-belt-buckle, featured, gem, gems, guide, how-to-play-world-of-warcraft, how-to-play-wow, metagem, new-to-world-of-warcraft, noob-guide, prismatic, rookie-guide, socketing, sockets, world-of-warcraft-guide, world-of-warcraft-help, world-of-warcraft-noobs, world-of-warcraft-rookies, wow-guide, wow-help, wow-noob-guide, wow-noobs New around here? Meta gems have their own requirements before they will activate. Once you are satisfied with your selections, click the "Socket Gems" button at the bottom of the window. You've ridden through the Dark Portal the old-fashioned way, swaggering into The Burning Crusade content in style. Figure 2: Placing a red, blue, and yellow gem into the sockets will give the item the inherent bonus of those three gems, but not the socket bonus (which remains grey). The number of sockets and the types of gems used within the item allow for a wide variety of customizations based upon how you wish to improve your character. Purchasing dual specialization does not grant you additional or secondary gem slots. Blacksmiths can add a socket to their own one-handed weapons, bracers or gloves. If a gem requires a specific number of other gems, it counts this based on all other gems currently socketed in equipped items on the character. Nonetheless, your groupmates applauded your luck and seemed genuinely pleased for you. Do I have to fill all the sockets in an item at once No. You can fill one socket at a time until you find the right gems for other slots, or fill them all at once. Can I use meta gems in a normal socket No. Meta gems can only be used in a meta socket. Prismatic gems and sockets accept (or "match") gems or sockets of any color. Whether you just want to get down the road with a decent set of gear or you enjoy endlessly tweaking your armor's performance, we'll help you fill your first sockets and make your character stronger than ever. Cenarion Thicket Circlet Head Cloth 94 Armor +16 Intellect +5 Spell Damage +4 Intellect +4 Critical Strike Rating Socket Bonus: +6 Stamina Equip: Improves spell critical strike rating by 16. Introduced with The Burning Crusade, socketed items open new ways to customize your equipment to your liking. Bottom: A meta gem's characteristics and requirements. Try things out before getting rid of older pieces. In addition, there are "secondary colored" gems - orange, purple, and green - that match two colors. Read up, and you'll catch the general drift. We'll walk you through all sort of new-player concerns, including game lingo for the beginner, joining your first guild as a mid-level player and on to what to do when you finally hit level 80.All products recommended by Engadget are selected by our editorial team, independent of our parent company. Can I put a different gem into a socket that already has a gem in it Yes. Just the basics - that's what WoW Rookie is here for. Cenarion Thicket Circlet Head Cloth 94 Armor +16 IntellectSocket Bonus: +6 Stamina Equip: Improves spell critical strike rating by 16. What can you put into a socketed item There are three primary colors of gems that can be placed into a socketed item: red, blue, and yellow. The socket bonus stacks on top of the stat bonuses the three gems would normally provide. High Warlord's Dreadweave Hood Head Cloth 127 Armor +49 Stamina +14 Intellect Socket Bonus: +2 Resilience Rating Required Level 70 Equip: Improves your resilience rating by 14. What are meta sockets and meta gems Meta sockets and gems are rare and provide powerful bonuses. How do I get my gems cut, and how do I know what type of cut I need? A couple of updates to that guide: A fourth type of gem (and gem slot) has been added. The only downside to not matching the colors with the sockets and the gems is not receiving the item's socket bonus. The sockets will sparkle if the matching gem color is put inside it. You'd done your reading; you knew these mobs were going to hit a lot harder, and you came prepared. Learn more in their Socketed Items Guide, which answers some common questions and includes tips on how to get the most out of your socketed items. And what's the latest scuttle on gems and Jewelcrafting? Note: If a gem matches the socket it is being placed into, the socket will begin to sparkle. Figure 1: This item requires a red gem and two yellow gems to gain a socket bonus. Jewelcrafting nerf incoming Epic gems and profession changes in Patch 3.2 Oh, and before we go - if you were wondering about the raid-focused followup to last week's Instance ID article, it's been delayed a bit. It's becoming, shall we say, somethin' ... Be aware that socketing is permanent - the gems are permanently affixed to your socketed item and there is no way to undo your decision. Secondary colored gems will count towards both colors they are eligible for. If these particular requirements are not met, the gem will not work and remain greyed out. Cenarion Thicket Circlet Head Cloth 94 Armor +16 Intellect +5 Spell Damage +5 Stamina +4 Critical Strike Rating Socket Bonus: +6 Stamina Equip: Improves spell critical strike rating by 16. These dormant bonuses appear in grey text below the sockets. If you buy something through one of these links, we may earn an affiliate commission.Popular on Engadget Where do I get gems? How do I gain a socket bonus As stated above, socketed items have dormant bonuses which appear in grey text below the sockets. This bonus will become active when certain criteria are met - usually when all an item's sockets are filled with gems that match the colors of the sockets. There is also a special type of gem called a meta gem, which fits specifically into a meta gem socket. Meta gems can have their own special requirements unique to each meta gem. You ran a few last dungeons before you shipped out, and you're respectably outfitted in BRD and URBS blues, along with a heady mix of new gear that appears to be dropping like candy.And then you looted a piece of armor with crazy-hot good looks but an odd, blank box among its stats - and the stats, strangely enough, appear to leave something to be desired. Thus, you may decide you would rather take the benefits from individual gems that don't match instead of going for the socket bonus. WoW Rookie points WoW's newest players to the resources they need to get acclimated. You can take an item that you might not otherwise use and make it suit your needs by picking your own gems. Again, it's important to note that you can put any color gem in any socket (except meta gems / meta sockets). A socketed item is like any other item in World of Warcraft, except that it can be upgraded by attaching magical gemstones to the item itself. However, any gems that were already socketed will be destroyed in the process - think of it as "overwriting" the old gem with the new one. When to gem and enchant Lengthy reader discussion WoW Gem Finder helps you find the right gems My teenaged son (every writer needs a back-seat DPSeer) reminds me to restate the obvious: fully gemmed, socketed items may look like hot stuff - but they may not perform like hot stuff for your particular character and gear mix. WoW Rookie feeds you the basics to get you off to a good start in the World of Warcraft. You'll learn: What are my choices in gems? much ... Bracing Earthstorm Diamond +26 Healing Spells & 2% Reduced Threat Requires more Yellow gems than Blue gems and more Red gems than Blue Gems "Only fits in a meta gem slot." Figure 4: Top: Item socketing window of a socketed item with a meta gem slot and a normal gem slot. Dual spec has no impact on your equipment at all; it changes your talents, your glyphs and your action bars. If an item has a red socket and two blue sockets, placing a red and two blue gems into the corresponding colored sockets will activate the socket bonus. BIGGAH! Stay tuned - and keep on enjoying those levels. What in Outland have you gotten into now?My dear WoW rookie, you've just looted your first socketed item. In that case it would be better to ignore the suggested gems and pick the ones you want to use instead. They can create an Eternal Belt Buckle for other players, which adds a Prismatic socket when applied to your belt (and accepts/matches gems of any color). Players can place any color gem into a socket; however, matching all of an item's sockets with their corresponding colored gems can award additional bonuses. How do I put gems into the slots? Can I put a different gem into a meta socket that is already filled Yes, but like all gems, doing so will destroy the one already present in the socket. How do I place a gem into a socketed item If an item has sockets, shift-right-click on it to bring up the item's socketing window. This imbues the item with additional powers similar to an enchantment. Figure 3: Placing a red and two yellow gems in the corresponding sockets will grant the item the gems' inherent bonuses, as well as the socket bonus. Sockets allow you to truly customize your gear to either augment your strengths or brace up your weaknesses (or both). Here, you can simply drag and drop gems from your inventory to the sockets. Equip: Increases damage and healing done by magical spells and effects by up to 20. Being dual-specified has no effect on your gemming. That said, the best place to start is our Insider Trader guide. A diamond is forever: a consumer's guide to gems. Send us a note to suggest a WoW Rookie topic.You're over level 60 now, and you're pretty hot stuff. Do I have to use only gems of a certain color in a socket No. You can place a red gem in a yellow socket, or a blue gem in a red socket. Equip: Increases damage and healing done by magical spells and effects by up to 29. Meta sockets will only accept meta gems, and meta gems can only be used in meta sockets. In this way, you can tailor an item to your needs. Some of our stories include affiliate links. A socketed item that has magic properties can be further specialized depending on the types of gems it is socketed with. What does each gem color do? Tags: L. First off, these recommendations are aimed squarely at non-jewelcrafting characters leveling their way through Outland and Northrend. (You'll probably want to assemble two sets of gear and use the new Gear Manager to keep them straight.) Still uncertain about how and when to gem your gear?
