Pokemon Renegade Platinum Rom : pokemon community has updated new version of Pokemon Renegade Platinum Rom with lots of fun and improvement based on players experience. If you are fan of pokemon roms and games like me then you will enjoyed this rom because I do a lot. In Pokemon Renegade Platinum Rom new version developer add some new character with some adventure stories. For more details read out below roms description. Romshippo.com is The Best Website/Platform For Rom, Emulators And Games. We Provide Direct Google Drive Download Links For Fast And Secure Downloading. Just Click On Download Button And Follow Steps To Download And Romshippo has great collection of roms in compression of other website, Request your favourite roms we will upload as soon as possible. Rom Information Full Name : Pre-Patched Pokemon Renegade Platinum Rom NDS Version : v130 File Size : 48MB Console : NDS ROM Genre : Role-Playing Region : WW Released : 2018 Language : English Description of Pokemon Renegade Platinum Rom Pokemon Renegade Platinum is an enhancement hack of the Pokémon Platinum Version, just like Drayano's different hacks consisting of Sacred Gold & Storm Silver and Blaze Black & Volt White. In a nutshell, this hack typically continues the identical tale go with the drift just like the unique Pokémon Platinum however provides in a considerable variety of gameplay differences, which include however now no longer restrained to get right of entry to to all 493 Pokémon within the game, remodeled Trainers which include harder boss fights, plenty of (optional) adjustments to weaker Pokémon to cause them to simpler to use, the elimination of alternate handiest evolutions and some of different exceptional of lifestyles adjustments. The specifics of what components were modified are defined within the paragraphs below. Features of Pokemon Renegade Platinum Rom All 493 Pokémon Available Revamped Trainer Battles Harder Boss Battles Fairy Type Added Increased Shiny Rate (1/8192 -> 1/512) Increased Gameplay Speed New Special Events and NPCs In-game Trades Changed Some TMs Have Changed Basic Stats Updated to Sun/Moon No More Trade Evolutions. (They Evolve by Leveling Up) All Wild & Trainer Pokemon Have Been Changed Hello, My name is Alison, I am the site manager of IGC and good friends of Craig (Finite), I actually live on the same street as him, that's how close we are. This account is being used to post news by myself, and a few members of our team. Personally, I am an avid fan of JRPG's and RPG's in general, I also love old school retro platformers like Mario, and finally, for some reason, I enjoy souls-like games. I run my own business along with 2 other sites, one for holidays and the other for music. This year I hope to grow my business more and maybe find my one true love. You can contact me at alison@invisioncommunity.co.uk The best GBA emulator on earth, and that's the MyBoy GBA emulator (Paid version). Every Pokemon GBA fan knows what MyBoy is; the app is available for free and paid versions. The paid version gives you full access to features, while limited free users can have limited capabilities but are still usable. At this moment, the paid version of MyBoy has millions of downloads solely on the Google play store. But, how about the APK file of MyBoy that can be downloaded for free online? What do you think? There are plenty of reasons why you need to download and use a full version of MyBoy not only for Pokemon gaming but also other popular GBA games; Fast and reliable emulation Full support for IPS/UPS ROM patching Light and Smooth GBA gaming Fast forward and slow down functionalities Runs nearly all GBA games without problems Supports Gameshark code, Code Breaker and Action Replay And many more... MyBoy! GBA Emulator (Paid) vs MyBoy! GBA Emulator APK If you would ask me, I'll go for the paid version, of course; this is to help the developer of MyBoy improve their app for the subsequent updates. In my case, after trying the free version for a little while, I purchased the paid version, and that's the best decision I've ever made in my life. However, if buying MyBoy is not an option for you at the moment, and you badly need the app. You can undoubtedly download an APK version. Although I do not recommend using APK, I can help find an APK for MyBoy if you insist, but do it at your own risk. MyBoy! GBA Emulator APK Free Download There are plenty of sources online where you can download APK for MyBoy at zero cost. I recommend heading to these links: To Sum This Up MyBoy is my all-time favorite GBA Emulator; other GBA emulators may work for you, but with functionality and advanced features, nothing can beat MyBoy. I've been a fan of this app for several years now I would highly suggest this to you. Start with the free MyBoy and purchase later when you feel the need for the paid version.
